# FAQ

We know booking wedding photography and videography is a big decision, and you likely have a few questions before saying “yes” to the team that will preserve your day forever.

This guide is here to walk you through the most common questions we receive – from what’s included to what happens if the unexpected occurs. At Chasing Lights Media, our goal is to make your experience as seamless, joyful, and supported as possible – from the first inquiry to the final film delivery.

If you don’t see your question here, we’re just a message away. Let’s make this effortless, together.

## **01. Is tax included in the package price?**

Taxes are not included in the listed package prices. Texas sales tax will be applied where required by law. Final pricing will always be clearly outlined in your proposal and contract before booking.

## **02. Can I add more hours to my package – before or on the day of?**

Yes! You can add extra coverage to any package before the wedding day. We recommend locking in your full timeline early so we can plan accordingly, but we understand that wedding days sometimes run long. We do allow day-of hour extensions (based on availability) at \$250/hr per team member.

## **03. Is there a travel fee?**

There is no travel fee for weddings within 2.5 hours of Cypress, TX. Zones including Houston, Brenham, Austin, Chappell Hill, Giddings, Bastrop, and surrounding Hill Country areas are also not subject to travel fees. For weddings outside that radius, travel fees will be quoted based on mileage, lodging needs, and logistics. Travels fees range from \$150 – \$450+.

## **03. Can I book photo or video separately?**

Absolutely. All of our photography and videography services can be booked independently or as part of a combined package – with bundled options offering the best value and synergy between teams. The reason to book the team is to create a seamless work experience behind the scenes. Examples are photographers standing in front of video and ruining a perfectly candid moment with the back of their head; the list goes on.

#### 04. How many shooters are included in each package?

Each package varies, but we always list the number of photographers and videographers in every package description. Most coverage starts with one lead creative and can be expanded with second shooters, drone operators, or on-call creatives as needed.

#### 05. What if something unexpected happens to a team member on our wedding day?

We offer an optional On-Call Creative Coverage add-on — which ensures a trained, fully briefed professional is on standby to step in should an emergency arise. We also maintain a trusted network of creatives who can be dispatched quickly depending on location. You're always covered. The realest example I can give you is my dad in the ICU due to a motorcycle accident from a student driver in the country side. There was no safety net as I was filming for another company and your wedding days and memories are precious to me so I let my brother go to the hospital, finished filming, and took care of all the pets. Ever since then I've always offered this package to ensure no matter what we capture the memories of truly one of the most important days of your lives.

#### 06. How do we receive our photos and films?

You'll receive your full wedding gallery and films via online delivery through a beautiful, downloadable gallery — perfect for sharing and printing. Optional USB delivery and printed album services are available as add-ons.

#### 07. When do we receive everything?

Timing fluctuates based on peak wedding season but these are the estimated average turnaround times for Galleries and Films.

Photo Galleries: 4–10 weeks after your event

Wedding Highlight Films: 6–10 weeks

Full-Length Films & Add-On Edits: 8–12 weeks

We always send out sneak peeks and social media teasers sooner when those add-ons are selected!

#### 08. Can we customize a package?

Yes! All of our packages are designed as flexible starting points. Whether you want to shift coverage, combine sessions, or build a bundle just for you, we'll work together to create something that fits your exact vision and timeline.

#### 09. Do you offer engagement or bridal sessions?

Yes — we offer engagement and bridal sessions starting at \$400, with options to include prints or add to your wedding package. It's the perfect way to get comfortable in front of the camera and capture this season of your story.

## **10. Can you break up hours of coverage for the day?**

No – we offer extensions or more hours but we don't break up our hours during the day if there is a break. If there is a lull in activity we typically will take that time to recharge any gear or prepare for the next event. We have breaks built in for shooters over 8 hours.

## **11. Do you Film or Photograph during Dinner?**

No – we typically don't as this is rarely a time people want to be filmed when they are chomping on food. It is also a brief moment we get to have a second to collect ourselves and regroup for the next event. That being said their are traditions were we do film while people are eating depending on the culture. We do bring togo containers just in case we get called away but all events during dinner do need us to be directly told it's happening otherwise we are off eating and hydrating.

## **11. Do we need to tip?**

No, tipping is never expected—but always appreciated if you feel we went above and beyond. We genuinely care about your experience, whether that means calming nerves, fixing wardrobe issues, or even lending a knee brace to save the dance floor and let the bride party on and enjoy her honeymoon (true story!). After 150+ weddings, we know how to keep things grounded and joyful. More than anything, we hope our work becomes a treasured reminder of the love and journey you're starting together.

# Sample Timelines

These suggested timelines are built around our most popular coverage packages. Every wedding is unique, so we tailor each schedule to your day's flow — but these examples offer a helpful guide when deciding how much coverage you need. # Meet the Team

## Why Book the team?

After capturing over 150 weddings together, we've learned what truly makes the day run smoothly: a team that knows how to move in sync. Working together as a cohesive unit allows us to anticipate each other's angles, communicate nonverbally, and ensure no moment is missed.

When a team lacks synergy, it can create challenges not just on the wedding day but later in the editing room. Missed cues, obstructed shots, or distracting background figures—often caused by unfamiliar second shooters—can compromise otherwise perfect footage. With Chasing Lights Media, your creative team is aligned from start to finish, from posing direction to final color grade.
